INTERNSHIP EXPERIENCES:

AGENTIC AI Algo Tutor :	2026
Successfully completed an Agentic AI Internship, gaining hands-on experience in building intelligent AI-driven solutions and autonomous agent workflows.Developed an Email Spam Detection system using Machine Learning techniques to accurately classify and filter spam emails.	
MERN Stack Intern Bytes Lab (Remote):	2025
I developed AgriRental, a scalable platform that helps farmers rent agricultural equipment efficiently, with features like listings, bookings, and user management. Built using modern web technologies and backend integration, it delivers a smooth user experience while addressing real-world agricultural challenges. - Link
